Dear Year 7 Parents,

The children have worked incredibly hard over the course of the past academic year and now deserve a break! However, we are always mindful that some parents and pupils like to have continuity while they are away from school.

With that in mind, we recommend the following to help consolidate the year's learning.

With all best wishes.

Andy Neil  
Deputy Head, Academic

English	Maths
<p>Children should continue to read widely over the holiday. They can pick up a book that might challenge them; find a copy of <i>The Week</i> or <i>The Week Junior</i>; pick up a book that they would never normally consider; pick up a classic and see how the language differs from modern literature; read the prequel or the sequel of a book they have enjoyed. Whatever it is, they should enjoy reading for pleasure. They can complete the Book Review template which can be found on Teams, for both sets. They may be asked to present their thoughts in class at the start of next term.</p> <p>In preparation for next year, pupils are asked to make notes on the comprehension practice tasks which will be available on the English Teams for all sets. There are also creative writing tasks to complete. Please choose two.</p> <p><b>Century</b> Children can access their tailored learning pathway on topics from this year.</p> <p><b>Summer Reading Challenge</b> Please find attached to this email. Children can take part at their local library.</p>	<p><b>Century</b> Children can access their tailored learning pathway on topics from this year.</p> <p><b>Transum</b> For those wanting a challenge, 'Transum Maths Map' has activities and games on a range of topics. <a href="http://www.transum.org/Software/Maths_Map/">www.transum.org/Software/Maths_Map/</a></p> <p>We recommend the following books to help consolidate the year's learning:</p> <p>CGP KS3 Maths Complete Revision &amp; Practice – Foundation CGP KS3 Maths Year 7 Targeted Workbook</p>
<p><b>Equipment for September:</b> For Maths, all children require pencils, 30cm ruler, protractor and compass. All children should have a scientific calculator. We recommend <b>Casio FX-85GTX</b>, available from Amazon.</p> <p>For English, all children require a <b>blue ink pen</b> that they are confident writing with. The expectation is that all children will have a reading book at school at all times.</p>
